

## DECORATION INNOVATIONS AND APPLICATIONS: PERSONALISE YOUR SPACE FROM TOP TO BOTTOM

Entirely personalised spaces are possible today thanks to the latest printing and finishing solutions as well as new media.

Interior decorators and architects have begun to recommend different printing medias (wallpapers, textile fabrics, adhesives), which have become increasingly high quality, resilient and aesthetic. But that's not all - it is now possible to print and personalise 3D media: furniture, household appliances, lighting, etc. There are countless possibilities and you can discover a leading edge selection in C!Print Madrid the 6th to 8th of October 2015 (Casa de Campo – Pabellón de Cristal).
