

EXPLORE NEW IDEAS IN DECORATION IN C!PRINT MADRID

from October 6 - 8, 2015.

We are just 4 months away from the opening of the C!Print trade show at Casa de Campo – Pabellón de Cristal in Madrid! Don't miss *the* event for visual communication professionals. This trade show will highlight the layout of points of sale and commercial spaces as well as personalisation and interior decoration.

Let's focus on one idea you will discover at C!Print: the personalised tile kitchen backsplash!

Today it is possible to personalise individual ceramic tiles in order to create decorative friezes or even a kitchen backsplash! Any design can be printed digitally directly onto the tile with an instant drying ink that is resistant to detergent products and offers a unique finish with brilliant colours. With this technique, your dreams of creating stunning personalised decorative projects can come to life!

Meet us at C!Print Madrid from the 6th to the 8th of October 2015 to explore the possibilities in decoration!
